I- PART ONE: Reading

(15 points)

A) Comprehension:

(8 points)

Read the text carefully and do the activities

Foxcomb Farm

Come and visit our farm and try some of our fresh organic produce!

We sell only healthy, organic food, all of which is grown here at the farm. Because we take a pride in the quality of all our produce, we don't use chemicals or pesticides. As well as selling a selection of fruit and vegetables, we also sell a lot of dairy produce. Our animals are fed on a natural healthy diet .We always have plenty of organic milk in stock; Most of the milk is sold, but we use a lot of it to make yoghurt, butter and cream. If we have too much milk, we sometimes give some to the local cheese maker. Occasionally, we also stock a little of his delicious cheese in our shop.

For everyone who is thinking of placing a regular order, we offer a sample box which contains a little bit of each dairy product and enough fruit and vegetables for one person for a week.

We look forward to welcoming you to our shop!

Mary and Peter Ross

1- Say whether these statements are true or false.

- Conventional food is grown in the farm.
- A quality produce contains neither pesticides nor chemicals. .
- In Foxcomb Farm, people can buy dairy products only.
- Most of the milk of the farm is used to make yoghurt.
